

XU2175B TRACK CUTTER

Quite simply the finest track cutter of its kind on the market anywhere, at any price. Its Micro-Shear® cutting action cuts quick, cuts clean, cuts square with a lot less effort than conventional compression cutters. Exclusive Xuro-Rubber™ cushion grips and Light Touch™ return spring for operator comfort and convenience. The track cutter's blades should be positioned on the top and bottom of the rail for the cleanest cut. Rated for Z, N, and HO gauge.

XU2193 HWAC CUTTER

HWAC stands for Hard Wire And Cable. The HWAC is rated for hardened wire, music wire, memory wire and throttle cable. It does not require any special cutting technique. This is an ideal tool for crafters who need to cut a wide variety of materials. Use our HWAC Cutter like any cutter: place the material between the jaws at the desired location and squeeze on the handles. Cutting effort is minimal due to the tools' shearing action. Cushioned Xuro-Rubber™ grips for comfort and Light Touch™ spring action returns HWAC to its open position.

XU410 HIGH PRECISION SHEAR

Features our patented Micro-Shear® blade by-pass and minimal outside bevel. Cuts small or soft material with virtually no pinch. Leaves a finished or near finished surface. Convenient Light Touch™ spring returns shear to its open position after each use. Exclusive Xuro-Rubber™ grips provide both comfort and the secure grasp required for precise control. For use only on soft materials. Use with paper clips and other hard materials will result in scarring of the edges.

XU440PET HIGH PRECISION SCISSOR

The answer to modelers' and crafters' needs for an ultra precise scissor. Cuts fine or delicate items, including materials such as silk embroidery floss or thin mylars and delicate photoetched parts with a clean, square edge exactly where the scissor is positioned. Ideal for cutting wood reed used in caning and basketry. Cushion grip, Xuro-Rubber™ handles and our Light Touch™ return spring replace conventional finger loops, for increased comfort and precision. This innovative design is especially advantageous for users with arthritic hands. Rated for cutting soft metals up to 0.005".

XU450S TWEEZERNOSE™ PLIER

The ultimate needlenose pliers. Six separate milling operations on each plier's nose ensures the blades match in size, shape and alignment. Tweezernose™ pliers combine the precision to pick up a human hair with the strength required for wire forming operations. Cushioned Xuro-Rubber™ grips and our Light Touch™ return spring speed use, enhance control and make the pliers more comfortable in your hand. Available with either smooth jaws (450) or with micro-serrations (450S) for an improved grip. This tool belongs in your customers' tool boxes regardless of their area of modeling expertise.
